

About the Pre-Apprenticeship Program for Women

Thinking of an Electrical Apprenticeship in 2024?

Electrical Pre-Apprenticeship Program for Women

Proudly funded by the NSW Government Women in Construction Industry Innovation Program.

Increasing female participation in the NSW Electrical Industry: encouraging a more diverse, inclusive and safe workplace for women.

NECA Training & Apprenticeships is holding a FREE Women-in-Power Electrical Industry Introductory Program in NSW over the 2023-24 Summer School Holidays.

The program will provide opportunities for Year 10-12 female students to develop entry level knowledge and skills for a career in the electrical or broader construction trades.

If you would like to be part of our two week Electrical Pre-Apprenticeship Program for Women, scan the QR code to submit your Expression of Interest.

- This program may be your head start into an electrical industry career.

What do you need to become an electrical apprentice?

- be aged 15 years or over
- completed at least Year 10
- a positive attitude
- an interest in the electrotechnology industry as a career
- an ability to work at heights, in confined spaces and around moving machinery
- an ability to distinguish between colours
- a good grasp of english and mathematics
- good communication
- good presentation
- punctuality

If you are searching for an exciting career, one that opens the door to a huge range of opportunities, electrotechnology could be for you.

At NECA we're here to help you complete a national qualification that supports a career in the electrical industry: electrical & communications, data, fibre, coax cabling, security, home automation, renewable energy, construction, air conditioning, fire protection, building management systems and more - keeping pace with the industry's fast evolving nature.

Once qualified, you can work in one of the world's most dynamic industries, start your own business or take your trade and work anywhere in the world.

"Consider an electrical career today and try out the Electrical Pre-Apprenticeship Program for Women"

NECA Electrical Apprenticeships is a company founded by the National Electrical and Communications Association (NECA) to promote the employment of young people in the electrical trade.

NECA Training & Apprenticeships has been operating since 1988 - we know the industry and have trained thousands of apprentices.

As a NECA apprentice, you will be placed with a host employer who will provide your on-the-job training. You will also attend NECA's Centre of Excellence to complete your studies.
