necasafe
DIGITAL

NECASafe Digital is a low-cost system that helps electrical businesses and workers to complete traditionally paper based WHS tasks quickly and effortlessly on a phone or tablet.

This affordable, electrical contractor designed safety app will help your business to:

- Log Hazards
- Prepare Incident Reports
- Complete Risk Assessments
- Compile Checklists
- Document Toolbox Talks
- Take Actions
- Quickly access documentation

Designed by electrical safety and technical specialists

NECA's in-house specialists teams developed NECASafe Digital in consultation with NECA members.

Digital Modules

- **My Library:** provides efficient management and instant access to safety documents.

- **Hazard Management:** guides users through a proactive process for continuous improvement.

- **Dashboards:** provides intelligent visual representations of HSEQ data.

- **Access Security:** users can be set up with permissions and group access.

- **Incident Reporting:** allows for logging, investigation, corrective actions and confidentiality.

- **Checklists:** access over 40 NECA checklist templates.

- **Actions:** allows for the creation, assignment and tracking of tasks to ensure completion within a specified timeframe.

- **Meetings:** allows convenient scheduling, note-taking and document storage.

Checklists

Access over 40 NECA created checklists:

- ✔ Share checklists with QR codes and links
- ✔ Add photo observations to your answers for additional context
- ✔ Edit existing templates or create your own
- ✔ Digital Signatures
- ✔ Offline functionality
- ✔ Easily create into PDF to share with contractors

Pricing starts from $20 p/m
