PURPOSE BUILT
TO ENHANCE
QUALITY OF LIFE

CM910/1HLNWE

Flexible and modular, Como makes everyday actions easier, enabling increased independence and comfort

Como's styling is contemporary and distinctive, with wiring accessories that are easy to see and use.

Featuring a generous switch surface area and smooth switching action, Como is ideal for everything from senior and assisted living to recreation clubs and modern homes.

CM400THWE

The range offers a suite of switches, powerpoints, dimmers, fan controllers, AV sockets, USB charger and installation accessories.

CM777WE

Whatever your specific needs may be, Como can be customised to meet them

INTEGRATE ADVANCED FUNCTIONS
FOR SMART LIVING

Integrate advanced electronic functions into Como, enabling an even stronger independent living offer.
Electronic functions include: no touch switches, skirting lights, movement sensors, USB chargers and emergency safety lighting.

No Touch Switches are activated by waving a hand within 5cm of the switch plate, making it perfect for people with limited hand flexibility. No Touch switches can also be used for auxiliary switching with water taps, doors and other applications.
(Image shown: Cat No.: 572051 + CMAR2MSF + CM910PLWE)

Skirting lights can be customised to offer permanent or movement activated light. Ideal for creating a light path at night to improve visibility and prevent falls.
(Image shown: Cat No.: 572221 + CMAR2MSF + CM910PLWE)

Automatic switches allow lighting to be switched on and off when movement is detected in an area. An ideal hands free solution for a range of spaces.
(Image shown: Cat No.: 572053 + CMAR2MSF + CM910PLWE)

USB Charging module offers a market-leading 2 x 2.4A charging capacity, the fastest available. Charge everything from tablets and phones to fitness bands at their maximum charging speeds. Add them to kitchens, bedrooms, lounge rooms and home offices.
(Image shown: Cat No.: AR770USB2PSAMWE + CMM910/770AWE + CMAR2MSF + CM910PLWE)

Emergency safety lighting. The miniature emergency lighting unit illuminates automatically during a power failure. It can also be detached from the wall to become a hand held torch.
